

Champion's New Smart Home Technology Package

Home Point aims to offer what top consumers list as their most desired smart home devices

Both Home Point packages, standard and plus, include the following items from Lutron's Caseta lighting controls line.

(1) Smart Bridge

(5) In-wall dimmers

(2) Pico remotes w/visor clips

Both Home Point packages, Standard and Plus, include the Nest Learning Thermostat. Home Point Plus also includes the Nest Protect Smoke and CO detector and Nest Cam.

Smart Bridge sends signals to dimmers using the copper wiring of the home and it must be wired to your router for the Caseta app to work

The Lutron Caseta app communicates with the Smart Bridge. It sends on demand signals to adjust lights and configuration settings for room scenes. The Caseta app can also be configured to communicate with the Nest Learning Thermostat.

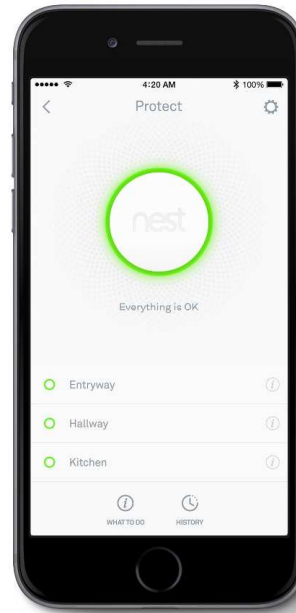

Nest Learning Thermostat

Nest Protect

Nest Cam

The Nest App communicates with all three of these devices and allows you to control your homes temperature, view and receive image alerts from the Nest Cam, and
